

# HOW TO PRINT BOOKLETS

Follow these easy instructions  
to make two 8.5"w x 5.5"h booklets at a time —  
one for you and one to share with someone else.  
Use these mini banners to start a discussion  
and change the conversation. Reframe it!

**1**

The page following this instruction page is the front cover.  
Print that page on a little heavier paper if you have it.  
Be sure to print all pages at 100% size (no shrink to fit).

**2**

Now print the rest of the pages double-sided so the  
odd number booklet pages go on the back of  
the even number pages (page #s are in lower right corner).  
For example, booklet page #3 prints on the back of page #2;  
booklet page #5 prints on the back of page #4, etc.  
Again, be sure to print all pages at 100% size (no shrink to fit).

**3**

Now cut the stack of 8.5x11 sheets in half to 8.5"w x 5.5"h.  
Staple in upper left corner. Voilà! You have two little booklets  
to carry with you in your purse or pocket.
